Additional information

NISULA 425C Harvester Head for Sale with NISULA SB13 Boom, AT8 Rotator and Dual Swing Dampener For sale: NISULA 425C harvester head complete with NISULA SB13 boom, AT8 rotator, and dual swing dampener. The NISULA 425C harvester head was purchased in 2018, but has never been put into operation. It has been stored indoors since delivery. Some areas show minor surface corrosion due to long-term storage; however, the unit is technically unused. The SB13 boom and AT8 rotator are from 2025. The NISULA 425C is a compact and productive harvester head suitable for both thinning operations and final felling. Its robust construction, accurate measuring system, and easy maintenance ensure efficient performance in various forestry conditions. Included in the package: NISULA 425C harvester head, SB13 boom, AT8 rotator, Dual swing dampener, excavator boom hose bracket kit (3 passages), NCU3 control system with 5.4" display, automatic chain tensioner, easy-Control system, printer, cables and all required electrical equipment. Condition: Unused Year of manufacture: 2018 Serial No.: 227
